PLUMBING CONNECTION

REACH AND INFLUENCE THE ENTIRE PLUMBING SUPPLY CHAIN

2019 MEDIA KIT
For over 32 years *Plumbing Connection* has provided the market independent, well-researched technical advice, through an investment in our own researchers/editors and the support of experts columnists.

Change across the industry is constant and it is to the Plumbing professionals distinct advantage to know what is happening by way of Code updates/interpretation, how new technology works, smart ways to work onsite and how to improve the running of a plumbing business. The depth of information we publish is not found in supplier brochures or on the internet – we write our stories in easy to understand language and support them with diagrams/pictures.

We are unique in that we promote the passing down of ‘tribal knowledge, the wise old-man-way of doing things that is in danger of being lost to time.

**ONLINE**
The [www.plumbingconnection.com.au](http://www.plumbingconnection.com.au) website is a valuable vehicle for communication between the print editions of *Plumbing Connection*, to keep the industry up to date.

**E-NEWSLETTER (NIB)**
The biweekly e-Newsletters are a newsfeed featuring all recent press and product releases delivered to industry inboxes in Australia and New Zealand.

We remain independent of any industry association but work with them and their members on various stories, as appropriate.

In order to develop our story content and technical articles, we consult closely with many industry groups and their individual members. We greatly value these ongoing relationships and in turn offer these organisations access to disseminating important messages to the broader market.
MAGAZINE

Plumbing Connection maintains its position as the leading independent technical publication for the professional plumbing industry. For over 30 years, the magazine has been the primary source of technical content for the industry — developing targeted content to help industry grow, to educate the plumbing professional, and to interpret the changing regulatory and technological environment.

www.plumbingconnection.com.au website is the site that caters for the building industry. The site fills the much needed hole between the quarterly editions of the magazine and provides the industry with a single point for keeping up to date with press and product releases. We regularly receive industry and product news which doesn’t meet our quarterly print publishing schedules – the website offers a unique environment to disseminate this information to our active database of industry visitors.

The website has been developed for responsive viewing – making it accessible to all building professionals on any device that is relevant (desktop, tablet or mobile)

To complement our magazine, website and e-newsletter offering, we have launched Plumbing TV.

Online videos are unquestionably a popular vehicle for brands looking to build or maintain a strong voice in the industry. Plumbing TV is a new service aimed at giving marketers an opportunity to communicate with our important audience of engaged systems integration professionals.

As with any marketing, reach is a key objective. Plumbing TV leverages existing websites, e-Newsletters and social media within the building eco-system to ensure your message is in front of the whole industry. The Plumbing TV channel is found at www.plumbingconnection.com.au/tv/.

All videos, once uploaded to the Building TV YouTube channel, will be distributed through:
* Plumbing Connection website
* e-Newsletter platform (NIB)
* Social Media (Facebook, Twitter and Linkedin)
